

# INTRODUCING MYA : Your Personal Assistant

The new AIO MYA CMS personal assistant is coming November 6<sup>th</sup> to help you improve your work experience and efficiency .

With insight, updates and advisory information, MYA is the smart AI assistant you need!

## To Each His Own MYA!

The main goal of MYA is to be a helpful tool, 'tailor made' for the needs of each employee, making big data simple and accessible.

MYA is here to assist, analyze your data and advise. MYA remind you of tasks and can recommend activities and actions for you to take to better your work.

MYA provides you insight and will present only the information you need, so you can make the most out of the abundance of data provided by your CMS.

- Insight – you will receive important information and updates related to your field of work. MYA's smart AI will constantly learn what you need.
- Task Manager – create a list of tasks and manage them, MYA will offer you new ones as well!
- Personal Information – quick view of all your tickets, last reports, updates, dashboards and more
